STEP #1 - CHOOSE YOUR GUESTS!

Begin with a title slide. Next give a list of your guests (8)

STEP #2- CHOOSE A THEME AND A MENU

Create a slide for each of the following:

The theme should be based upon the guests you invited (for example if it is early Cold War then struggle for supremacy might be the theme, but use your own clever theme!)

Do some research on the people you have chosen for guests and create a menu (appetizers, entrees and dessert)
STEP # 3- RSVP’S & REGRETS

Unfortunately 2 of your guests can not attend the party. You will need to create 2 slides for each of them. The first should be biographical information about the person and the second slide should contain historical reason why they cannot attend. Make sure the biographical slide includes a picture of the person.

STEP #4- WHY DID YOU INVITE THEM?

For this part you will explain why you invited the 6 guests who will be attending. You will need two slides for each five guests. The first will be biographical information about each. The second slide can be used to explain historically why you invited them. Be sure to include a picture of each guests.
STEP #5 - SEATING CHART

Seating is very important at such an exclusive event! Create a seating chart for your guests. To accomplish this use a graphics program such as Paint, or Photoshop. You may use a picture of them or their name in the chart. Explain in writing why you sat each guest in their seat.

STEP #6 - TOPICS DISCUSSED (WHAT DID THEY SAY?)

Finally, now that everyone is gathered around the table it is time for small talk! Create two slides to show the interaction between your guests. Include 2-3 guests in each conversation and give examples of 2 different interactions.

A list of the people you can invite is attached.

You must hand in (typed) a bibliography.
